Apply Configuration

Type and Networking

Server Configuration Type

Choose the correct server configuration type for this MySQL Server installation. This setting will define how much system resources are assigned to the MySQL Server instance.

Config Type: Development Computer

Connectivity

Use the following controls to select how you would like to connect to this server.

☒ TCP/IP Port: 3306 X Protocol Port: 33060

☒ Open Windows Firewall ports for network access

☐ Named Pipe Pipe Name: MYSQL

☐ Shared Memory Memory Name: MYSQL

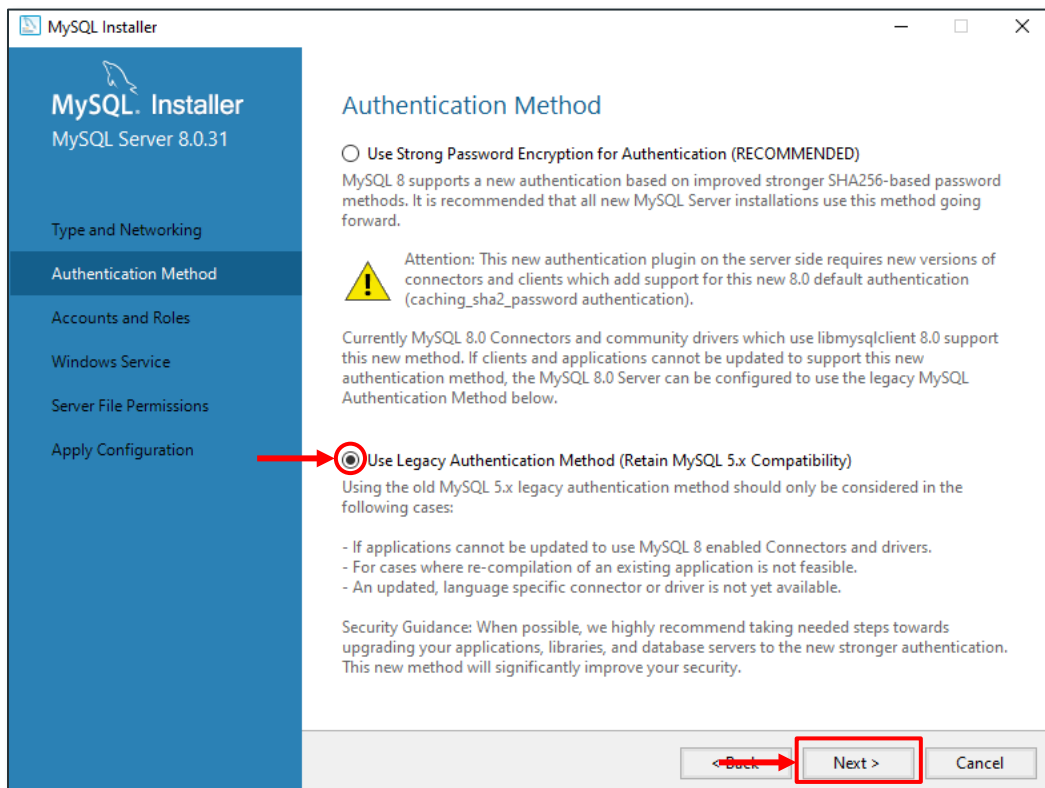

Advanced Configuration

Select the check box below to get additional configuration pages where you can set advanced and logging options for this server instance.

☐ Show Advanced and Logging Options

Next > Cancel

👉 Gardez les paramètres par défaut et cliquez sur **Next >**

☞ Sélectionnez « Use Legacy Authen ... »

☞ Puis cliquez sur Next >

👉 Entrez le mot de passe "root" puis confirmez une seconde fois ce dernier dans la case située plus bas.

👉 Cliquez ensuite sur **Next >**

Weak n'est pas un soucis car nous ne sommes pas sur le réseau

The screenshot shows the 'MySQL Installer' window for 'MySQL Server 8.0.31'. The left sidebar contains a list of steps: 'Type and Networking', 'Authentication Method', 'Accounts and Roles' (which is highlighted), 'Windows Service', 'Server File Permissions', and 'Apply Configuration'. The main area is titled 'Accounts and Roles' and contains two sections. The first section, 'Root Account Password', asks the user to enter a password for the root account and repeat it. The password field shows four dots, and the 'Repeat Password' field also shows four dots. Below these fields, it says 'Password strength: Weak'. The second section, 'MySQL User Accounts', instructs the user to create MySQL user accounts and assign roles. It features a table with columns 'MySQL User Name', 'Host', and 'User Role'. To the right of the table are three buttons: 'Add User', 'Edit User', and 'Delete'. At the bottom of the window, there are three buttons: '< Back', 'Next >' (which is highlighted with a red rectangle), and 'Cancel'.
